Paul McCartney Eyes \$13M 4BR Condo On Fifth Avenue

By Jessica Dailey

A four-bedroom condo on Museum Mile that's been sitting on the market for more than a year got some Christmas love from former Beatle Sir **Paul McCartney**. The *Post* reports that McCartney and his wife, Nancy Shevell, checked out unit 16B at **1049 Fifth Avenue**, currently listed for **\$12.9 million**. The 3,335-square-foot apartment was originally listed in October 2012 for \$13.5 million, but had its price reduced by \$500K in July 2013. The home has Central Park views and design details one expects from a prewar Fifth Avenue building: coffered ceilings, rosewood herringbone floors, marble bathrooms, and a mahogany paneled library.
