A passion for detail and devotion to superior service are what has earned Jessica Peters and Stephanie O'Brien their # 1 ranking in Brooklyn and top 1% ranking nationwide. The Peters & O'Brien team's approach is carefully tailored to the specific need of each client. To insure success, a unique plan is developed for every investor, buyer, seller, and renter. Their strengths are in identifying and capitalizing on the changing dynamics of the market. Because of that focus, Peters & O'Brien consistently break sales records in both established and emerging neighborhoods in Brooklyn. While their primary focus is Brooklyn, they are well-equipped to assist their clients in other New York City boroughs.

This three-family brownstone has been completely gut-renovated and will be delivered vacant. This home maximizes space while delivering contemporary luxury that recalls the stately splendor that is historic to this area. The perfect balance between modern utility and traditional splendor. The owner's three-bedroom, two-and-a-half-bath triplex sprawls through the parlor, lower floor, and finished basement and is abundant with exposed brick, hand-carved wood ornamentation, and modern appliances and fixtures. It also has access to the large deck and back yard. Above are two well-proportioned floor-through two-bedroom, one-bath apartments that offer rear-facing bedrooms and modern kitchens framed with pickle-washed exposed brick.
