TRIBECA

Dream Homes
 WHEN ONLY A MANSION WILL DO
 BY VICTOR WISHNA

WITH better weather on the way, private outdoor space might be a priority. If so, this Tribeca penthouse features a roomy, 872-square-foot landscaped patio, with plenty of views of One World Trade Center. Inside, there's also lots of room — 3,374 square feet, in fact. As for the bones of this Beach Street unit, they're quite great: details include triple exposures and “dramatic” ceiling heights, plus three bedrooms and three full bathrooms. **Agents: Darren Sukenik and Benjamin Glazer, Douglas Elliman, 212-727-6111 and 212-727-6151**
